- “Using ChatGPT effectively”

AI Exercises

Hands on questions for faculty/librarians to practice using generative AI (provided by Keith Webster, CMU):

Practical/Fun
Create a menu for a dinner party of ten
Write a complaint about an amazon delivery
Summarize the key points in the article/book (insert title) written by (insert author)
Help me prepare a conversation explaining why pineapple is the best topping on pizza
Write a five star customer review of the product (insert product name)
Tell me what I can make with chicken, broccoli, milk, bread crumbs, carrots and celery
Generate a meme based on XXXX
Generate a list of mindful activities to do at home in 10 minutes or less
Create a weekend itinerary in New York City

Work
Outline a one hour workshop on (insert topic)
Generate new ideas for how to use technology to promote cultural understanding.
Give me ten fun ideas for virtual social events in the workplace
Create a one hour fun “get to know you” meeting between a team and the new employee
Develop a list of feedback questions that I can use in a meeting with my supervisor
Create an email subject line for the XXXX
Create social media content for XXXX
Create a marketing plan for XXXX
Summarize this YouTube video on embracing change
Come up with new ideas for library programs and services.
Brainstorm ways to improve the library’s website or mobile app.
Generate new ideas for how to promote the library to students and faculty.
Develop new solutions to the problem of information overload.
Generate a list of ways to collaborate with other departments on campus
